**HIGGINS gives you
a complete color palette**

Higgins American Drawing Inks have always been the first choice of engineers, architects, designers, artists — all who draw. Wherever plans, shop drawings, designs or line work for reproduction are made, Higgins American India Ink gives that unchanging jet-black needed for clarity in the blue-print and for permanency in the original.

When color is indicated, Higgins American Drawing Inks assure you of true color, uniformity and even flow. All Higgins colors mix freely with each other and with black and lend themselves equally well for use with pen or brush. Higgins American Drawing Inks may be purchased from your College Store or Stationer.

Successful

ENGINEERS

ARE SLAVES TO DETAILS

The Student Engineer does well to pattern after the great men who have gone before him. Attention to minute details are their constant aim to gain perfection.

The Carroll Press, Inc. has shown a steady growth in the engineering of the printed message. They too, owe their success to the principle of "Attention to Details."
